

ABHIJITH S

Software Engineer

+91 8848067168 | abhijithsb745@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Results-driven Software Engineer specializing in scalable MERN stack applications and high-throughput backend systems. Proven track record in optimizing data pipelines, decreasing latency with Redis, and deploying automated cloud infrastructure on AWS.

Technical Expertise

Languages & Frontend: JavaScript (ES6+), TypeScript, HTML5, CSS3, React.js, Redux Toolkit, Tailwind CSS, Bootstrap, Electron.js

Backend & Databases: Node.js, Express.js, RESTful APIs, MongoDB, PostgreSQL, Redis, RedisJSON

Architecture & Realtime: MVC, Repository Pattern, JWT, SOLID Principles, Socket.IO, Redis (Pub/Sub, Streams)

Cloud, DevOps & Tools: AWS (S3, EC2), NGINX, Docker (Basics), CI/CD (GitHub Actions), Git, VS Code, Postman, Figma, Winston (Logging)

Core Competencies: Data Structures & Algorithms, System Design, Problem Solving, Debugging

Work Experience

Quantiply Technologies

Software Engineer

Mumbai, India

May 2025 – Nov 2025

- **Engineered** a centralized, full-stack log viewer system (React.js/Node.js) with automated AWS S3 log ingestion to improve operational visibility and streamline debugging.
- **Developed** a cross-platform Electron.js desktop application for server management and real-time log monitoring, enhancing internal server control operations.
- **Automated** OHLC CSV data processing pipeline handling **10,000+ records daily**, structuring and storing nested data in MongoDB.
- **Optimized** data persistence and retrieval by implementing RedisJSON workflows, decreasing lookup latency by **40%** for vital datasets.
- **Architected** cross-platform data synchronization by deploying real-time communication features utilizing Redis Streams, Redis Pub/Sub, and Socket.IO to support high-concurrency connections.

Projects

Curehub - Doctor Appointment Booking Platform | *Personal Project*

Dec 2024 | [GitHub](#) | [Live](#)

- **Architected** a full-stack MERN appointment platform featuring robust role-based access control for Patients, Doctors, and Administrators.
- **Implemented** secure digital healthcare features, including Razorpay payment processing, real-time WebSocket chat, and on-demand PDF prescription generation.
- **Established** highly reliable platform operations with automated zero-downtime deployments by configuring a CI/CD pipeline using Vercel, NGINX, and AWS EC2.

Education

Manipal University

Bachelor of Business Administration (CGPA: 8.07)

Jaipur, India

2022 – 2025 | [Certificate](#)

S.N.T.H.S.S

Higher Secondary (Biology Science) (CGPA: 7.2)

Ala, Chengannur

2014 – 2016

Certifications

MERN Stack Developer Certification | *Brototype, Kochi, Kerala*

2023 – 2025 | [Certificate](#)
